DESCRIPTION

The Mansan folding knife features a bamboo handle and a 2CR13 stainless steel blade, ideal for camping and outdoor use. Its compact dimensions (9.7 x 2.5 x 1.1 cm) make it easy to carry, while the PU cord lets you hang it from a bag or loop. Bamboo gives the handle a natural look and light feel; as a natural material it may show slight colour and size variations that can affect the final customisation result.

Practical details include a retractable blade, visible metal liners between the bamboo scales and smooth edges for comfortable handling. Its compact construction fits in a pocket and is simple to maintain — wipe the blade dry after use and avoid prolonged soaking of the wooden handle.
