Average weight	0.512
Dimensions	Ø8 x 19,5 CM
Country of origin	China
Carton	15 pieces

DESCRIPTION

This cylindrical wireless speaker is splash-resistant (IPX4) and designed for on-the-go listening. Fitted with a 1800 mAh battery and colour-changing LED lights, it delivers sound through a woven grille and features built-in controls for power and volume. Its compact size (Ø8 x 19.5 cm) and attached carry strap make it convenient to transport.

The build shows reinforced edges, tactile control buttons along the side and a top section likely serving as a passive radiator. The riveted strap provides secure handling; the unit is suited for outdoor use or travel and can be cleaned with a damp cloth.

This personalised speaker can be branded by laser engraving, digital printing or doming, depending on the marking area and finish required. Recommended for companies, sports clubs, associations, events and private customers. Minimum order: 8 pieces (colours and sizes combined) — smaller quantities may be possible with additional fees. Free quote within 24 hours on weekdays; graphic studio available to retouch or vectorise your logo; collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
