Reference	6698
Composition	Aluminium
Material	Aluminium
Average weight	0.062
Dimensions	32 x 2,3 x 2,3CM
Country of origin	China
Carton	200 pieces

DESCRIPTION

The Tria architect's ruler is an aluminium triangular rule designed for precise drawing and measurement in offices or on-site. Its three-sided profile provides stability on the drawing surface, with clear graduations across 30 cm. Suitable for professional and educational use, the ruler is easy to keep clean with a dry or slightly damp cloth.

The model features five scales: 1:20, 1:25, 1:50, 1:75 and 1:100, allocated across the three faces for quick scale conversions. Measuring 32 x 2.3 x 2.3 cm, it is easy to handle and store in a pencil case or on a workbench. The aluminium construction offers the rigidity required for accurate lines.

Customise this ruler with laser engraving to add a logo, name or technical markings — ideal for architecture firms, technical schools, construction companies, clubs and promotional events. Minimum order: 100 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
