DESCRIPTION

The John plush toy is a large PET teddy designed as a child's toy or promotional gift. Measuring 25 x 20 x 24 cm, it wears a small hooded jumper suitable for sublimation printing. Its rounded silhouette and finished ears and head give it a soft, comforting appearance that works well for giveaways or branded merchandise.

The hooded jumper provides a flat area ideal for marking; visible stitching at the sleeves and hem indicates a practical construction for everyday handling. This item is not a textile: its size and structure are suited to object printing techniques rather than traditional garment decoration.

Available from a minimum order of 8 pieces, this personalised plush toy can be decorated using flex, screen printing on object, multicolour transfer, DTF printing and sublimation. It is suitable for companies, sports clubs, associations, events and private customers. Our graphic studio can retouch or vectorise your logo to ensure the best print result.
