Reference	6824
Composition	Metal
Material	Metal
Average weight	0.035
Dimensions	9,5 x 3CM
Country of origin	China
Carton	300 pieces

DESCRIPTION

This zinc-alloy keyring combines a euro token with an integrated bottle opener, practical for shopping and everyday outings. Compact and sturdy at 9.5 x 3 cm, it features a flat rectangular area designed for marking. The metal construction ensures durability; wipe with a damp cloth for care. Suitable for regular use by businesses, clubs and event organisers.

The Tokeu model attaches to a standard split ring and remains easy to handle thanks to its slim profile. Edges are finished to reduce snagging and the central plate provides a clean, visible surface for a logo or text. Its size and shape make it a convenient promotional item to distribute and carry.

Personalisation available by laser engraving or pad printing. Ideal for companies, associations, sports clubs and events seeking personalised keyrings. Minimum order: 150 pieces (colours and sizes combined) — smaller quantities can be arranged with additional fees. Free quote within 24 hours on weekdays and our studio can retouch or vectorise your logo.
