Average weight	0.029
Dimensions	4,5 x 9 x 3CM
Country of origin	China
Carton	200 pieces

DESCRIPTION

Compact wooden sand timer of approximately 3 minutes, measuring 4.5 x 9 x 3 cm. Its wooden frame with a central glass tube provides a simple, practical way to track short time intervals in domestic or professional settings. Lightweight and stable, it sits easily on a desk, shelf or treatment table. The natural wood finish offers a restrained look; care consists of light dusting and careful handling of the glass.

The model features four cylindrical posts and rectangular top and base plates that secure the glass tube. Its small size makes it useful as an accessory for care settings, kitchens, gyms or educational activities where a short visual timer is needed.

This personalised sand timer can be marked by laser engraving or pad printing. Suitable for companies, sports clubs, associations, events and private customers seeking a natural promotional item. Minimum order: 100 pieces (colours and sizes combined); smaller quantities may be possible with additional fees. Free quote within 24 hours on weekdays and a graphic studio is available to prepare your logo for marking.
