Reference	6921
Composition	Soda-lime glass
Material	Soda-lime glass
Average weight	0.314
Dimensions	Ø6.5 x 25CM
Country of origin	China
Carton	20 pieces

DESCRIPTION

The Lom bottle is made from sodocalcic glass and holds 650 ml; the product photo shows its slim, matte finish and a natural bamboo lid — a material that may display slight variations in colour and grain. Measuring Ø6.5 x 25 cm, the bottle's cylindrical shape is comfortable to grip and fits easily in bags and cup holders, making it practical for everyday use at the office, events or on the move.

The screw-top closure provides a secure seal and the glass body is straightforward to clean and maintain. The bottle is offered in several colour options, for example white and transparent, depending on stock and selection.

This personalised bottle is available from a minimum order of 10 pieces (colours and sizes combined). We can personalise using sublimation, screen printing on items, laser engraving, pad printing, digital printing and doming. Suitable for companies, sports clubs, associations, events and private clients. Free quote within 24 hours on weekdays; collect from our Evere workshop or choose delivery in Belgium, France and Luxembourg.
