Reference	6934
Composition	Recycled Stainless Steel
Material	Recycled Stainless Steel
Average weight	0.215
Dimensions	11.5 x 11.3CM
Country of origin	China
Carton	20 pieces

DESCRIPTION

Inari double-wall cup made from recycled stainless steel, 300 ml capacity and dimensions 11.5 x 11.3 cm. The double-wall construction provides a comfortable grip and reduces heat transfer to the exterior; the photo shows an integrated handle and a sliding-slider lid for convenient drinking on the go. The item is available in several colours, such as black, white or blue.

The cup has a clean, straight profile with a smooth outer surface, a visible metal rim at the top and an ergonomic handle. The transparent sliding lid allows drinking without removing the lid and helps prevent spills. Suitable for both hot and cold beverages depending on use; easy to care for.

Customisation options include laser engraving, screen printing on objects and pad printing. This personalised cup is aimed at companies, sports clubs, associations, events and private customers. Please note a product-specific minimum order of 10 pieces — smaller quantities can be arranged with additional fees. Free quote within 24 hours on weekdays and our studio can vectorise or retouch your logo.
