Composition	Recycled Stainless Steel
Material	Recycled Stainless Steel
Average weight	0.295
Dimensions	9 x 21CM
Country of origin	China
Carton	24 pieces

DESCRIPTION

The Ivalo double-wall bottle (500 ml) in recycled stainless steel provides thermal insulation for cold and hot drinks. It features a PP lid with an integrated straw and a carry loop, making it suitable for commuting, sports and everyday office use. Slim cylindrical shape (9 x 21 cm) for easy handling and fits most cup holders; rinse the straw and lid after use for simple care.

This model comes in several colours, for example black, white or navy, and the double-wall construction reduces condensation. The leak-proof lid and carry handle make it practical to transport.

Customisable for businesses, sports clubs, associations and events, this personalised bottle can receive digital printing, laser engraving, screen printing on objects or pad printing. Minimum order: 12 pieces (colours and sizes combined) — smaller quantities are possible with additional fees. A free quote and graphic studio are available to prepare or vectorise your logo.
