Reference	6955
Composition	RPET
Material	RPET
Average weight	0.05
Dimensions	21 x 11,5CM
Country of origin	China
Carton	200 pieces

DESCRIPTION

The Dactile touchscreen gloves are made from RPET and designed to operate a smartphone without removing the gloves. Unisex fit, measuring 21 x 11.5 cm, they feature conductive tips on the fingers for reliable touchscreen control. RPET provides a more eco-responsible alternative to virgin polyester while remaining flexible and comfortable for everyday wear. Gentle cold wash is recommended to preserve shape and touchscreen performance.

The gloves include a small cork label at the wrist — a 100% natural material whose surface texture can vary and may affect the final print result. The knitted construction offers a straightforward fit with no additional fastenings or pockets, making them practical for commuting and light outdoor use.

These personalised gloves are suitable for companies, sports clubs, associations and events. Customisation options include laser engraving (on the cork label) and embroidery. Minimum order: 100 pieces (colours and sizes combined). Free quote within 24 hours on weekdays, in-house graphic studio for logo vectorisation, collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
