DESCRIPTION

Reusable heart-shaped heat pack (7.5 x 9 cm) providing instant warmth without batteries — activation is triggered by pressing the internal metal disc. The glossy finish and smooth surface make it comfortable to handle and easy to wipe clean. Filled with a reactive liquid, it remains compact and portable.

The flat, heart-shaped profile makes it simple to position on the neck, wrist or lower abdomen. With no electrical components, it can be activated multiple times, making it suitable for repeated use. Its compact dimensions are convenient for promotional giveaways or event gifts.

Customisable by screen printing or pad printing, this personalised heat pack suits companies, sports clubs, associations and events looking for a useful, reusable promotional item. Minimum order: 100 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; in-house artwork studio available for logo preparation.
