Reference	8281
Composition	Metal
Material	Metal
Average weight	0.246
Dimensions	12 x 9 x 4.5CM
Country of origin	China
Carton	40 pieces

DESCRIPTION

A practical, compact personalised bike repair kit designed for rides and on-the-go fixes. The Amir kit contains a range of metal tools (tyre levers, a multi-tool with hex keys, a rasp, glue and patches) neatly organised in a durable pouch with reinforced edges and reflective bands. Measuring 12 x 9 x 4.5 cm, it slips easily into a bag or can be carried on the bike.

The pouch includes compartments to keep parts organised and prevent loss; the tyre levers and patches enable quick roadside repairs. The metal construction of the tools provides reliable durability; care is limited to wiping and drying the pouch and tools after use to reduce corrosion.

We can personalise this personalised bike repair kit using flex, multicolour transfer or DTF printing. Suitable for companies, sports clubs, associations, events and promotional gifts — minimum order: 20 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; graphic studio available to adapt or vectorise your logo.
