DESCRIPTION

The Vueltas fan is a compact electric handheld fan made of ABS, designed for outdoor events. Its cylindrical profile (10 x 3.2 x 2.8 cm) offers a comfortable grip and a transparent protective cap for hygienic, portable use. It runs on 2 AAA batteries (not supplied) and produces an airflow of about 2.6 m/s, suitable for short bursts of cooling during outdoor activations.

The minimalist, smooth design makes it easy to handle and transport. The ABS construction provides everyday durability, while the cap keeps the nozzle clean. The unit is simple to wipe down with a damp cloth and fits neatly into bags or on promotional tables.

This personalised fan can be marked by DTF printing or pad printing, techniques adapted to its cylindrical surface. Ideal for companies, sports clubs, associations, events and private customers, it is available from a minimum order of 50 pieces (colours and sizes combined); smaller quantities can be arranged with additional fees. We provide a free quote within 24 hours on weekdays, a graphic studio to prepare or vectorise your logo, collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
