Ref. 8426

Reference	8426
Composition	ABS
Material	ABS
Average weight	0.132
Dimensions	Ø10 x 3,4 CM
Country of origin	China
Carton	40 pieces

DESCRIPTION

The Nonsmoke smoke detector is a compact safety device moulded in ABS, designed for both domestic and communal use. Its low-profile round shape (Ø10 x 3.4 cm) makes it easy to mount on ceilings or walls without dominating the space. Supplied with a 9V battery and two fixing screws, it features a visible operation indicator and a front test button for simple checks.

The smooth, one-piece construction keeps maintenance straightforward—light dusting with a dry cloth is usually sufficient. The accessible test button allows quick verification of functionality without removing the unit from its mount.

This personalised smoke detector can be marked using digital printing or pad printing, suitable for companies, sports clubs, schools, associations and private customers. Minimum order: 20 pieces (colours and sizes combined).
