DESCRIPTION

This stoneware mug, model Sublimkonik, holds 300 ml and has a slightly conical silhouette that makes it comfortable to hold. The handle incorporates a matching teaspoon for stirring hot drinks; the glazed finish provides a smooth surface and straightforward care. Supplied individually in a white cardboard box, it is suitable for daily use at the office, retail locations or events.

The special sublimation coating ensures durable full-colour prints while the glazed surface is easy to clean. Compact dimensions (Ø8.6 x 12 cm) keep it space-efficient without sacrificing usability. Individual packaging is convenient for corporate gifts or welcome kits.

This personalised mug can be decorated using sublimation or tampography, techniques suitable for bold full-colour designs or finer logos. Recommended for businesses, sports clubs, associations, events and private customers; please note the product is not available per piece — minimum order 10 pieces (colours and sizes combined).
