Reference	8470
Composition	Metal
Material	Metal
Average weight	0.128
Dimensions	13 x 7,5 x 2,8 CM
Country of origin	China
Carton	80 pieces

DESCRIPTION

The Resq 3-in-1 car safety hammer is a compact emergency tool combining a metal tip for breaking glass, an integrated seatbelt cutter and a small LED torch. The body is ABS with visible metal components at the tip and cutter; dimensions are 13 x 7.5 x 2.8 cm, offering a T-shaped grip for straightforward one-handed use. Supplied with 3 AG3 batteries, it's lightweight and easy to store in the glovebox or attach to a keyring.

Design details focus on usability: a protected recessed cutter blade to avoid accidental exposure, visible fastenings and an on/off switch for the LED. The tool comes in several colours, for example orange and black, and its compact proportions make it suitable as a safety accessory in vehicles.

Can be personalised by pad printing (tampography), digital printing and doming — a practical personalised Accessoires de voiture for companies, clubs, associations, events or private individuals. Minimum order: 40 pieces (colours and sizes combined); smaller quantities can be arranged with additional fees.
