Reference	8539
Composition	Aluminium
Material	Aluminium
Average weight	0.034
Dimensions	Ø5,5 x 5 CM
Country of origin	China
Carton	280 pieces

DESCRIPTION

Unisex Ringring bicycle bell designed for urban commuting and leisure rides. It features an aluminium dome paired with an ABS base, measuring Ø5.5 cm, and a compact profile with a striker mechanism that produces a clear sound. The lightweight construction makes mounting simple on most handlebars and care is limited to occasional wiping to remove dirt and moisture.

The bell shows a smooth, rounded dome and an easy-to-operate striker lever reachable while riding. The adjustable clamp secures the bell to the handlebar without adding unnecessary bulk, and components are assembled to withstand regular use.

Customisable by pad printing, digital printing or doming, this personalised bicycle bell suits companies, sports clubs, associations and event giveaways. Minimum order: 140 pieces (colours and sizes combined) — smaller quantities can be arranged with additional fees. Collection from our Evere workshop or delivery in Belgium, France and Luxembourg; our graphic studio can retouch or vectorise your logo.
