Ref. 8816

Reference	8816
Composition	Stainless steel
Material	Stainless steel
Average weight	0.278
Dimensions	Ø5 x 22CM
Country of origin	China
Carton	50 pieces

DESCRIPTION

The Giro electric mill is a stainless steel kitchen utensil designed to grind salt or pepper with a ceramic mechanism. Its slim cylindrical profile (Ø5 x 22 cm) provides a comfortable grip and the transparent spice chamber lets you monitor contents at a glance. It runs on 4 AA batteries (not included) and is suitable for kitchen use, catering at events or as a branded gift.

The brushed steel finish and clear reservoir are durable and easy to wipe clean; the straightforward shape makes handling and occasional cleaning simple. Its compact size fits on worktops, service tables or in a gift pack.

The mill can be custom marked by laser engraving or pad printing to add a logo or message — a practical option for companies, clubs, associations, events and individuals seeking a personalised spice mill. Minimum order: 25 pieces (colours and sizes combined).
