DESCRIPTION

Ellwood wooden cutting board in a rectangular format (30x20x1.2cm), designed for everyday kitchen use. The smooth surface and visible wood grain give a stable cutting area, while a shallow peripheral groove collects juices to help reduce spillover. The board has slightly rounded edges and a slim profile for easy handling.

With a neat, single-piece finish and no visible handles, the board stores flat or stacked without taking much space. Its thin construction makes it practical for both food preparation and serving.

Personalise this personalised cutting board with laser engraving or pad printing to add a logo, name or message — suitable for businesses, clubs, associations and events. Minimum order: 20 pieces (colours and sizes combined). Our graphic studio can vectorise or retouch your artwork and we provide a free quote within 24 hours on weekdays.
