DESCRIPTION

The Tarifa colouring kite for children is made from PET and measures 39x49cm, offering a stable diamond-shaped surface for drawing and colouring. It comes with four markers and a long tail to aid flight stability, plus a hand grip for easy handling. It's designed for outdoor play and can be wiped clean for light maintenance.

The photo shows metal eyelets at the corners and a robust fabric tail, providing better wind performance and simple, durable construction. Pre-printed outlines create a fun colouring area for kids without fragile parts. The product is available in several colours, for example blue, red and green.
