Ref. 8941

Reference	8941
Composition	PET
Material	PET
Average weight	0.116
Dimensions	147 x 69CM
Country of origin	China
Carton	100 pieces

DESCRIPTION

Foldable sunshade for windscreens, measuring 147 x 69 cm, made from PET with a reflective surface to reduce heat buildup and protect the vehicle interior. This lightweight, flexible sunshade collapses into two concentric discs that fold into the supplied storage pouch, convenient for the boot or glove compartment. Its rectangular design provides wide coverage suitable for standard cars.

The edge is stitched to keep the shape and assist folding; an elastic loop secures the shade when stored. Care is straightforward: wipe with a damp cloth to remove dust and marks without affecting the reflective finish.

Customise this sunshade for your fleet or event giveaways: personalised sunshade available using flex, multicolour transfer, screen printing on objects or DTF printing. Ideal for businesses, clubs, associations, events and private customers — minimum order: 50 pieces (colours and sizes combined). Our design studio can retouch or vectorise your logo before production.

COLOURS (1)

Matte Silver
