Country of origin	China
Carton	50 pieces

DESCRIPTION

The Solar Powerflat powerbank is a slim 8000 mAh external charger in aluminium with an integrated solar panel for emergency top-ups. Measuring 7.5 x 15 x 1 cm, it is pocket-friendly and suitable for carrying in bags. It provides DC5V/1A and DC5V/2A outputs for charging smartphones, features an indicator light and includes a USB cable with a micro-USB connector. The aluminium casing offers a matte, durable finish and a professional appearance.

The solar panel covers the front face while the edges house the connectors and status LED, resulting in a clean, utilitarian design ideal for corporate and event use. Care is straightforward — wipe with a dry or slightly damp cloth and avoid immersion or strong impacts.

Minimum order quantity: 25 pieces (colours and sizes combined). Customisation is available by tampography, laser engraving or digital printing. Suitable for businesses, clubs, associations, events and promotional campaigns — a practical personalised powerbank for corporate gifts and event kits.
