Reference	9218
Composition	ABS
Material	ABS
Average weight	0.011
Dimensions	5 x 3 x 1 CM
Country of origin	China
Carton	200 pieces

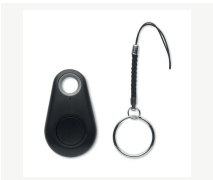

DESCRIPTION

The Find Me keyfinder is a compact wireless keychain in ABS designed to help locate keys and everyday items via a free app (isearching) compatible with iOS and Android. A CR2032 battery is included and the unit features a central button serving as a remote/trigger. At 5 x 3 x 1 cm it is discreet and easy to carry on a keyring or in a pocket, with a simple, ergonomic shape for straightforward use.

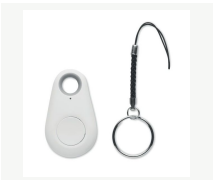

The body includes an attachment hole for a ring or lanyard and a small LED status indicator near the top, while the pronounced central button ensures easy operation. The ABS construction provides a matt, durable surface; maintenance is limited to light cleaning with a damp cloth. Suitable for both personal use and for item identification across teams or events.

This promotional item can be personalised as a personalised keyfinder using pad printing, digital printing or doming. Recommended for companies, sports clubs, associations, events and private customers. Promotional objects have article-specific minimum quantities: minimum 100 pieces (colours and sizes combined); smaller runs are possible with additional fees. Free quote within 24 hours on weekdays and a graphic studio is available to retouch or vectorise logos.
