Average weight	0.043
Dimensions	Ø3,5 x 6 CM
Country of origin	China
Carton	200 pieces

DESCRIPTION

This stainless steel keyring is a polished, durable accessory designed for everyday use. It features a flat ring, a short chain of links and a magnetic token (Ø3.5 x 6 cm) that attaches securely to the metal body — practical for trolley coins or small magnetic inserts. The shiny finish gives a neat, professional look and the metal is easy to keep clean.

The compact, functional construction makes it simple to attach to keys or a bag via the flat ring and connecting links. The stainless steel provides good wear resistance while maintaining its appearance. The product is offered in several colours across the range.

As a personalised keyring, it can be customised by laser engraving, pad printing or doming. Suitable for companies, sports clubs, associations, events and promotional gifts. Minimum order: 100 pieces (colours and sizes combined); lower quantities may be possible with additional fees. Free quote within 24 hours on weekdays; standard and express production options available. Collection at our Evere workshop or delivery in Belgium, France and Luxembourg. Our graphic studio can retouch or vectorise your logo.
