Country of origin	China
Carton	100 pieces

DESCRIPTION

Compact Unipad wireless charger made of ABS, designed for charging smartphones and Qi-compatible devices. Its rounded-square shape and smooth surface provide stable support for the device. Measuring 9 x 9 x 0.9 cm, the unit is lightweight and easy to transport. Fitted with two USB ports and an integrated power cable, it functions as a small charging station for multiple devices.

At the workplace or on the go, the low profile makes it convenient to carry and place on a desk. The two USB ports allow simultaneous wired charging alongside wireless charging; the finish is smooth and understated. Practical for daily office use, corporate events or promotional kits.

Brand this personalised wireless charger using DTF printing equivalents in accessories: digital printing, doming or pad printing. Minimum order: 50 pieces (colours and sizes combined). Suitable for companies, clubs, associations, events and corporate gifts — our design studio can retouch and vectorise your logo for clean reproduction.
