DESCRIPTION

Perpetual desk calendar in bamboo, model Karenda, compact size (13 x 4 x 5.5 cm). The design pairs a rectangular bamboo block holder with interchangeable cubes for numbers, days and months. Bamboo is a natural material with subtle variations in grain and colour; the finish shown in the photo displays a consistent texture and a tactile, natural feel.

The construction is straightforward and sturdy: the holder features slots that keep the cubes neatly in place. Its compact footprint makes it suitable for desks, meeting rooms or reception areas as a practical, decorative accessory that can be reused year after year.

Customisation options include laser engraving and pad printing. This calendar is suited to companies, associations, clubs and events seeking a sustainable promotional item. Minimum order quantity: 50 pieces (colours and sizes combined). Perfect as a personalised desk accessory for corporate gifting and branded merchandise.
