Reference	9420
Composition	Borosilicate glass
Material	Borosilicate glass
Average weight	0.592
Dimensions	Ø7 x 23CM
Country of origin	China
Carton	25 pieces

DESCRIPTION

Double-walled borosilicate glass bottle designed for tea infusion and everyday use. This unisex model features a removable stainless-steel infuser below a natural bamboo screw cap, which may show slight variations in colour and grain. The bottle is leak-resistant, slim and cylindrical, with dimensions Ø7 x 23 cm and a capacity of 400 ml. For care, wash the glass and infuser by hand to protect the bamboo lid.

The double-wall construction reduces heat transfer and gives a clean, modern look. There is no handle, making the bottle easy to slip into a bag for office use, club activities or promotional events. The removable infuser makes brewing loose-leaf tea straightforward and practical.

Customisation is available by tampography and screen printing on the object; laser engraving is not possible on borosilicate glass. A practical personalised bottle for companies, associations, sports clubs and private customers. Minimum order: 13 pieces (colours and sizes combined). We offer a free quote within 24 h on weekdays and a graphic studio to retouch or vectorise your logo.
