Country of origin	China
Carton	100 pieces

DESCRIPTION

Round bamboo wireless charger (Ø9 x 0.7 cm) designed for simple smartphone charging: plug in the USB cable, place the phone on the pad and charging begins. The bamboo surface gives a natural look with minor variations in grain and tone. A small LED shows charging status with a blue light. Its low-profile disc design suits desks and reception areas alike.

The smooth bamboo top accepts marking well and the natural finish reduces glare for easy phone alignment. As a natural material, bamboo may show slight colour and grain differences between pieces. Compact dimensions and USB connectivity make it straightforward to use with a workstation.

Personalisation is available by laser engraving or pad printing, suitable for businesses, clubs, associations, events and private customers. This personalised wireless charger has a minimum order quantity of 50 pieces (colours and sizes combined); smaller quantities may be possible with additional fees. Our studio can retouch or vectorise your logo and we provide a free quote within 24 hours on weekdays.
