Reference	9514
Composition	PVC
Material	PVC
Average weight	0.02
Dimensions	10 x 12 x 0.2CM
Country of origin	China
Carton	200 pieces

DESCRIPTION

The Parkcard Parkcard is a rigid PVC parking disc measuring 10 x 12 x 0.2 cm, designed to sit behind a vehicle windscreen. It features a rotating dial visible through a cut-out to indicate arrival time. The PVC construction provides durability and easy care — wipe clean with a damp cloth. Note: this model is not compliant for France and Belgium.

Functional details include a numbered time dial, a riveted centre fixing and a reading window for clear visibility. Sealed edges and printed pictograms make it straightforward to use. The item comes in several colours (for example blue) and has fixed dimensions.

Customisation is available by laser engraving or pad printing, suitable for companies, vehicle fleets, associations, events and private customers. Minimum order: 100 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; pick-up at our Evere workshop or delivery in Belgium, France and Luxembourg.
