DESCRIPTION

The Fanny Wood hand fan is designed for outdoor events and combines natural wooden ribs with a polyester leaf. Its traditional shape provides a comfortable grip and effective airflow when opened at 41x22cm, and it folds neatly for compact storage. The wooden structure offers a warm, sturdy feel while the polyester panel provides a smooth surface that is easy to wipe clean.

Visible details include evenly spaced wooden slats joined at a central rivet and reinforcing strips on the fan leaf that improve durability in use. The fan is offered in several colours — for example Black, Royal Blue and Beige — across 8 available options. Please note the minimum order quantity: 125 pieces (colours and sizes combined).

Personalise this personalised fan using laser engraving or pad printing (tampography), depending on the finish you need. Suitable for companies, clubs, associations and events; our design studio can retouch or vectorise your logo prior to production. Free quote within 24 hours on weekdays and collection in Evere or delivery to Belgium, France and Luxembourg.
