Country of origin	Netherlands
Carton	180 pieces

DESCRIPTION

This Basil kit is a compact gardening product designed for easy basil cultivation at home or in the office. The substrate block measures 10 x 10.5 x 1.5 cm; by adding 300 ml of water you obtain roughly 1 litre of growing medium ready for sowing. The composition is listed as "other" and the cubic format makes it practical for storage and distribution, ideal for educational activities, events or corporate gifting.

Packaged as a neat cube, the item occupies little space on a windowsill or desk and is made for quick set-up after hydration. The finish is straightforward and functional, intended for bulk distribution. No textile components are involved.

This personalised gardening product can be customised using digital printing, doming and pad printing to add a logo or message. It is targeted at companies, associations, clubs and events and is sold with a minimum order of 90 pieces (colours and sizes combined); smaller quantities may be possible with additional fees. Free quote within 24 hours on weekdays and collection from our Evere workshop or delivery in Belgium, France and Luxembourg.
