## DESCRIPTION

This bamboo keyring phone stand is a practical, lightweight phone accessory for propping up a device during video calls or media viewing. Made from natural bamboo, it shows the material's slight variations in grain and finish. At 8 x 3 x 1.5 cm it is compact and easy to carry; care is limited to wiping with a dry or slightly damp cloth to maintain the wood.

The item features a machined slot to hold the phone and a lower ledge for support, plus a metal key ring attached by a braided cord so it works as a keyring too. Its rectangular shape and clean edges give stable support for smaller screens and a refined look suitable for corporate gifts.

Customize this personalised phone accessory with laser engraving or pad printing. Minimum order: 200 pieces (colours and sizes combined). Suitable for companies, events, sports clubs, associations and private customers; our graphic studio can retouch or vectorise your logo prior to marking.

## COLOURS (1)

Wood
