Ref. 9751

Reference	9751
Composition	PVC
Material	PVC
Average weight	0.006
Dimensions	8.5 x 5.5 CM
Country of origin	China
Carton	2000 pieces

DESCRIPTION

RFID protection card in PVC, 0.9 mm thick, designed to shield 13.56 MHz cards from electronic pickpocketing. The card is flat with rounded corners and compact dimensions (8.5 x 5.5 cm), making it easy to slip into a wallet, pocket or travel holder. PVC offers straightforward handling and simple maintenance with a wipe-clean surface.

The card generates an electromagnetic field that protects nearby cards within approximately 2–3 cm, without visible electronic components. Its slim profile and smooth finish make it convenient to carry alongside other cards and suitable for frequent use during travel or everyday activities.

Personalised travel accessory ideal for companies, clubs and events, customisable by pad printing, digital printing and doming. Minimum order: 1000 pieces (colours and sizes combined). Our graphic studio can vectorise or retouch your logo and we provide a free quote within 24 hours on weekdays. Collection from our Evere workshop or delivery in Belgium, France and Luxembourg.
