DESCRIPTION

The Toty Wood is a round wooden keyring, compact and lightweight, designed to keep keys together neatly. The wooden disc measures approximately Ø4 x 0.7 cm and is attached to a sturdy metal ring for reliable everyday use. The natural wood gives a simple, tactile feel suitable for many contexts.

Its clean, minimalist construction — a smooth wooden token with a metal ring — makes it unobtrusive in a pocket or bag. Care is straightforward: wipe with a soft cloth and avoid prolonged immersion to protect the wood.

This keyring can be personalised from a minimum order of 250 pieces. Available marking methods include digital printing, doming, laser engraving and pad printing. Practical for companies, clubs, associations, events or promotional giveaways; our studio can retouch or vectorise your logo. Free quote within 24 hours on weekdays and standard production as stated.
