Average weight	0.076
Dimensions	Ø9,9 x 0,8 CM
Country of origin	China
Carton	100 pieces

DESCRIPTION

Personalised wireless charger in bamboo with a slim round profile, designed to top up Qi-enabled smartphones without cables. The bamboo surface gives a natural, tactile feel while the aluminium rim provides a neat, stable finish. At Ø9.9 x 0.8 cm it is compact enough for desks, bedside tables and reception areas; a blue charge indicator shows the charging status. As bamboo is a natural material, grain and shade may vary between units.

The low profile and smooth top make it simple to position a phone precisely. The power cable connects at the rim and remains unobtrusive; operation is straightforward—place the device on the pad to begin charging. Wipe the bamboo with a damp cloth and avoid soaking.

This personalised wireless charger can be branded by laser engraving or pad printing, depending on the desired look and location. Ideal for companies, sports clubs, associations, events and private individuals looking for a sustainable promotional item. Minimum order: 50 pieces (colours and sizes combined). Our studio can retouch or vectorise your logo.
