Bottle with touch thermometer

Ref. 9796

Reference	9796
Composition	Stainless steel
Material	Stainless steel
Average weight	0.267
Dimensions	Ø6 x 23CM
Country of origin	China
Carton	50 pieces

DESCRIPTION

This double-walled stainless steel insulated bottle combines a slim profile with practical features. Its narrow cylindrical shape (Ø6 x 23 cm) makes it easy to hold and carry; the interior includes a removable tea infuser and the lid integrates a touch LED thermometer so you can check drink temperature at a glance. Leakproof and anti-spill, it has a 450 ml capacity and is best hand-washed.

The cap shows clean finishing and a non-slip base improves stability in everyday use. The infuser keeps loose leaves out of your drink and the thermometer runs on a replaceable CR2032 battery. Suitable for daily office use, travel or event giveaways.

This personalised bottle can be marked by laser engraving, digital printing, screen printing on objects or pad printing. Minimum order: 25 pieces (colours and sizes combined). We provide a free quote within 24 hours on weekdays and our design studio can vectorise or retouch your logo prior to production.
