Reference	9996
Composition	ABS-Wheat straw
Material	ABS-Wheat straw
Average weight	0.039
Dimensions	Ø7 x 1 CM
Country of origin	China
Carton	100 pieces

DESCRIPTION

The Plato+ wireless charger is a slim, compact unit made from wheat straw (35%) combined with ABS for a subtly textured finish. It charges smartphones by placing the device on the pad and provides an output of DC5V/1A (5W). With dimensions Ø7 x 1 cm it is easy to carry and suitable for everyday use on desks or when travelling.

The charging surface is circular and flat with a peripheral rim to help position the device; the power cable connects at the side. The composite material gives a natural, slightly flecked appearance and requires only light cleaning with a soft cloth to maintain the finish.

This personalised wireless charger is available from a minimum order of 50 pieces and is marked by pad printing to apply your logo or message — well suited for companies, sports clubs, associations, events and corporate gifts. Our graphic studio can retouch or vectorise your artwork; free quote within 24 hours on weekdays. Standard production 10 working days, express 24 hours for items in stock; collection at our Evere workshop or delivery in Belgium, France and Luxembourg. personalised wireless charger
