DESCRIPTION

A stainless steel compact compass (10.5 x 8 x 2 cm) designed for outdoor and sporting use. Its circular form and metal case make it lightweight and easy to carry in a rucksack or kit. Suitable for hiking, orienteering and promotional giveaways, it requires minimal upkeep — a quick wipe removes dirt and moisture.

The compass comes in a matching metal box that protects the item in transit and provides a tidy presentation for corporate gifts. The needle and directional dial sit under a clear dome and the unit has a matte finish for a discreet, practical look. Its small dimensions make it convenient to hand out at events or include in promotional sets.

Customize this personalised compass using laser engraving, digital printing or pad printing — techniques we offer for businesses, sports clubs, associations, schools, youth movements and individuals. Minimum order quantity: 40 pieces (colours and sizes combined). Our studio can refine your logo and provides a free weekday quote.

COLOURS (1)
