Ref. AR1810

Reference	AR1810
Composition	Metal
Material	Metal
Average weight	0.35
Dimensions	8 x 4 CM
Country of origin	China
Carton	40 pieces

DESCRIPTION

The Kubzle is a metal desk accessory: a 3D puzzle made from magnetic metal pieces that form a cube mounted on a base. At 8 x 4 cm it doubles as a decorative paperweight and a compact piece of desk décor suited to professional environments. The matte metallic finish gives the object a rigid feel and a restrained, office-appropriate appearance.

The magnetic components slot together cleanly, making assembly simple and reducing mechanical wear. The base provides stable support on a flat surface and the all-metal construction stands up to regular handling. No textile elements are associated with this item.

This personalised desk accessory can be customised with laser engraving or pad printing, techniques well adapted to metal. Ideal for companies, events, clubs and associations looking for a corporate gift or promotional item. Minimum order: 20 pieces (colours and sizes combined); free quote within 24 hours on weekdays, with collection at our Evere workshop or delivery in Belgium, France and Luxembourg.

COLOURS (1)
