DESCRIPTION

This unisex multifunctional neck tube is made from 100% polyester microfibre and can be worn as a bandana, neck warmer or headband. Its seamless construction offers continuous comfort and breathable wear; lightweight and offered in one size, the stretch fabric adapts to movement for sports or everyday use.

The seamless finish avoids rubbing at the neck and makes care straightforward — quick to wash and dry thanks to the synthetic fibre. Available in several colours, for example Classic Red, Black or French Navy, it suits outdoor activities, events and everyday practical use.

This personalised scarf can be ordered from a single piece and is suitable for companies, sports clubs, associations, youth movements and individuals. Customisation is available by embroidery, and our studio can vectorise or refine your logo. A free quote is provided within 24 hours on weekdays.
