DESCRIPTION

Small wooden Christmas tree to assemble and paint yourself, presented as a playful seasonal gift for children. Made from pre-cut wooden panels that slot together, the set requires no tools for assembly. It includes six water-based paint pots and a brush so you can decorate the tree to your liking. Star and circle cut-outs add visual interest and offer space for bespoke finishes. Dimensions: 29.7 x 24.8 cm.

The clean edges indicate laser cutting and the round base provides good stability on a table or shelf. Lightweight and portable, the kit is suitable for craft workshops and event activities. Protect from prolonged moisture to maintain the wood and applied paint.

We can personalise this item as a personalised decoration using digital printing, doming, laser engraving or pad printing. Ideal for companies, sports clubs, associations, events and private customers seeking a branded, hands-on gift. Minimum order: 25 units (colours and sizes combined).
