DESCRIPTION

A star-shaped seed paper decoration designed to adorn a Christmas tree or interior and then be planted to grow a mix of wildflowers. The Starseed model is made from seed paper with a jute cord, measures 8x8x0.2 cm and features a punched hole for easy hanging. Manufactured in the EU, it provides a sustainable option for seasonal décor and post-holiday reuse.

The seed paper has a natural textured finish and the jute cord offers a simple, sturdy suspension. Its thin profile makes the ornament lightweight and suitable for branches and small displays. After use, plant the star in a pot or directly in the ground following the supplier's instructions to cultivate a small wildflower patch.
