Composition	Borosilicate glass
Material	Borosilicate glass
Average weight	0.204
Dimensions	11 x 10,7 x 11 CM
Country of origin	China
Carton	20 pieces

DESCRIPTION

The Sian double-walled glass mug holds 220 ml, suitable for hot drinks such as coffee and tea. Made from borosilicate glass, it offers thermal resistance while remaining lightweight; the rounded profile and integrated handle give a comfortable grip. The natural bamboo lid doubles as a coaster and shows slight natural variations in colour and grain.

The double-wall design helps insulate the beverage and reduces condensation on the outside, while the inner cavity retains heat. The product is available in several finishes but is sold with a minimum order of 10 pieces (colours and sizes combined). Care recommendations: wash the glass by hand when possible and wipe the bamboo lid to preserve its finish.

Order this personalised glass for corporate gifts, seasonal promotions, clubs or retail. We can apply digital printing, doming, laser engraving and pad printing to the glass or the bamboo lid. Free quote within 24 hours on weekdays and standard production according to the workshop's conditions.

COLOURS (1)

Transparent
