DESCRIPTION

Paper hanging ornament made from recycled paper, designed to fold flat and be easily deployed with a magnetic closure. The honeycomb construction provides volume while remaining lightweight; available in 1 colour (for example beige) with a 10 cm diameter. The recycled paper makes storage simple after use. Keep dry to preserve the paper's structure.

The visible finish shows an accordion-style assembly with a discreet hanging cord and magnetic fastener that holds the sphere open. The folded paper construction offers a warm, textured look and reliable shape once deployed, suitable for seasonal displays and temporary event decoration.

This personalised decoration can be marked by digital printing or pad printing and is aimed at companies, associations, clubs and events looking for a recyclable branded ornament. Minimum order: 250 pieces (colours and sizes combined). Free quote within 24 hours on weekdays; collection at our Evere workshop or delivery in Belgium, France and Luxembourg.
