LED decorative bulb

Ref. CX1582

Reference	CX1582
Composition	Soda-lime glass
Material	Soda-lime glass
Average weight	0.11
Dimensions	7*12CM
Country of origin	China
Carton	50 pieces

DESCRIPTION

The Lumiglow decorative LED bulb is crafted from soda-lime glass with an ABS base and measures 7x12 cm. It runs on two included CR2032 batteries and features a decorative filament shaped like a fir tree that provides soft ambient light. Designed as a decorative accent rather than primary lighting, it is lightweight and easy to dust with a dry cloth.

The clear glass globe and stylised base showcase the shaped filament. Battery power means no wiring is required, making placement straightforward on tables, shelves or in seasonal displays. The item is available in several colours, for example yellow or fluorescent green, and suits event décor and promotional gift programmes.

Not available per single unit: minimum order 25 pieces (colours and sizes combined). Personalisation available by pad printing, suitable for simple logos and marks. Ideal for companies, sports clubs, associations and events seeking a personalised decorative bulb. Free quote within 24 hours on weekdays; collection from our Evere workshop or delivery across Belgium, France and Luxembourg.
