DESCRIPTION

Men's two-layer softshell with a straight cut, designed to retain warmth while remaining lightweight. The outer layer is water-repellent and the inner micropolar lining provides thermal comfort. It features a stand-up collar, full-length zip with chin guard, and two zipped side pockets lined in poly-tricot. Shoulder and back panels are topstitched for durability; hems and cuffs are finished with double-needle stitching.

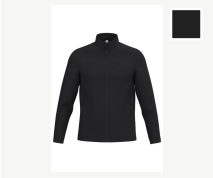

The jacket is available in several colours and in sizes S to 4XL — for example Ideal Black, Ideal Navy and Ideal Dark Grey. The detachable brand label makes it easy to rebrand. The straight fit is practical for workwear or casual use and the construction supports regular care for technical garments.

This personalised softshell can be ordered from a single piece and is suitable for companies, sports clubs, associations and private customers. Possible marking techniques: screen printing transfer, MSO transfer, DTF printing, flex (flocking) and embroidery. Our design studio can vectorise and prepare your logo for production.
