DESCRIPTION

This men's quilted bodywarmer features a straight cut and a high collar to protect the neck. Made from 100% polyester with horizontal quilting and injected filling, it provides lightweight insulation and compresses into its included storage pouch. It is available in several colours and sizes S to 4XL, and is designed for easy wear and care.

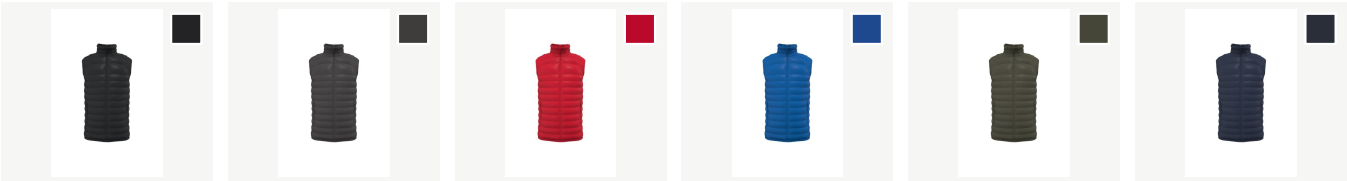

Practical details visible on the model include a tone-on-tone nylon zip with chin guard, zipped side pockets lined in 290T and two inner pockets. Elastic binding at the armholes and hem ensures a secure fit, and the wider quilting panels across the chest and upper back create a clear area for decoration without disturbing the garment's lines.

This personalised bodywarmer can be customised from one piece on a wide range of textile and accepts several techniques: DTF printing, screen printing transfers, flex (flock) and embroidery. Suitable for companies, sports clubs, associations, events and private customers who need a practical, customisable outer layer.

KEY FEATURES

- Larger customisation area on chest and back.
- Multiple pockets for added functionality.
- Storage bag included.
