## DESCRIPTION

Compact square desk weather station in ABS featuring a large LCD that displays the clock, temperature, humidity and a calendar. The unisex design combines brushed metallic-look top and bottom panels with a darker central frame highlighting the screen. Runs on 2 AAA batteries (not included) and measures 13 x 2 x 13 cm, suitable for a desk, shelf or reception area.

The slim, flat profile and smooth finish make it easy to clean and resist dust build-up; the display presents key information at a glance for quick reading. The unit is lightweight yet stable on flat surfaces and requires only simple care — wipe with a soft dry cloth to maintain the ABS finish.

Customisation options include DTF printing, Doming, laser engraving and tampography. Ideal for corporate gifts, events, associations and office use. Minimum order: 20 pieces (colours and sizes combined); smaller quantities may be possible with additional fees. Free quote within 24 hours on weekdays, with collection from our Evere workshop or delivery in Belgium, France and Luxembourg.
