Carton	200 pieces

DESCRIPTION

The Euring keyring is a round stainless steel accessory designed for everyday use. Measuring 7 x 3.5 x 0.5 cm, its flat, compact profile slips easily into a pocket or bag. It features an integrated token holder suited for shopping trolleys, and the smooth polished surface is easy to keep clean and withstands regular handling.

The solid metal build and classic split ring ensure secure attachment of keys. Rounded edges and a neat mechanical finish give a practical, robust feel without fragile parts. The model is available in several colour options (for example, bright silver) depending on the chosen variant.

This personalised keyring can be marked by laser engraving or pad printing, processes that work well on metal. Ideal for companies, clubs, associations, events or promotional gifts. Note that the minimum order quantity is 100 pieces. Our design studio can edit or vectorise your logo; free quotes within 24 hours on weekdays and collection from our Evere workshop or delivery in Belgium, France and Luxembourg.
