DESCRIPTION

Unisex softshell designed to protect against wind and rain while remaining breathable. The 3-layer construction (92% recycled polyester, 5% recycled TPU membrane, 3% elastane) combines a warm microfleece lining with a waterproof, windproof membrane to deliver technical insulation and comfort. Available from XS to 5XL, the cut suits teams and organisations.

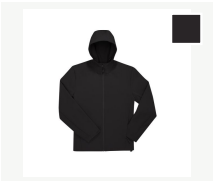

The photo shows an integrated hood and a full-length zip that provide reliable upper-body protection; the stretch fabric offers freedom of movement for everyday wear. The jacket comes in several colourways, for example Black, Navy and Royal Blue.

This personalised softshell can be marked by embroidery, flex, screen printing transfers, transfer MSO or DTF printing to apply logos and text. Perfect for companies, sports clubs, associations, events and private customers. Our design studio can retouch or vectorise your logo and the item can be personalised from one piece.
